CANDIDATE FOR SECRETARY OF STATE

G. B. LIKENS

TO THE VOTERS OF KENTUCKY—I am a candidate for Secretary of
State, subject to the will of the Democratic party to be expressed in
the primary election Aug. 7, 1915. My party loyalty, my availability
as a candidate, my conduct as a private citizen and my record as a public
official are respectfully submitted for investigation and consideration. For
more than three years I have served you as Assistant Auditor, and
while the office is not an elective one, the duties are important and ex-
acting. These I have honestly endeavored to discharge properly and ef-
fectively. My experience, I feel, has especially prepared me to fill the
office to which I now aspire. If nominated and elected as your Secretary
of State, all the energy and ability which I have shall be earnestly de-
voted to the business of that department. No duty will be too arduous
for me to perform faithfully, and none will be considered too trivial to re-
ceive careful and prompt attention. Feeling very grateful for the assur-
ances of support already received, and soliciting the votes and influence
of all, I am,
Sincerely yours,
G. B. LIKENS

business ability and one who
would know what would be to
the public good and who would
be fearless in discharging his
duties.

Novel Burglar Alarm.

A novel burglar alarm has been
placed on the market in Germany,
composed of a small metal disk, circular
in shape, which may easily be carried
in the vest pocket. It is so arranged
that a detonating cap may be inserted,
and so loaded it becomes a terror to
sneak thieves. Suppose a traveler is
staying in a strange hotel and finds
that he cannot lock his door. He
places a chair against the door and
slides the disk under one of its legs.
Should anyone attempt to enter the
room the chair is forced out of posi-
tion, the disk flies open and the cap
explodes, awakening the sleeper. The
disk may be used under baggage, in
purses, under bicycle or automobile
tires and in many other ways.

"Has she been married long?"
"Well, one of them lasted nearly
two years, but the average, I think,
has been six months."

NOT SCARED BY BILLS.

"It is said that women are braver
than men. Do you believe it?"
"Well, I think more of them would
take a chance at marriage."

AFTER SUFFERING TWO LONG YEARS

Mrs. Aselin Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Minneapolis, Minn.—"After my little one was born I was sick with pain in my sides which the doctors said were caused by inflammation. I suffered a great deal every month and grew very thin. I was under the doctor's care for two long years without any benefit. Finally my friends suggested to try it. I got Lydia E. Pinkham's Vegetable Compound. After taking the third bottle of the Compound I was able to do my housework and today I am strong and healthy again. I will answer letters if anyone wishes to know about my case."—Mrs. JOSEPH ASSELIN, 606 Fourth Avenue, Minneapolis, Minn.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and today holds the record of being the most successful remedy we know for woman's ills. If you need such medicine why don't you try it?

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Electric Chair for Rats.
A novel device for electrocuting rats was rigged up by the city engineer of the railroad station at Fort Wayne, Ind. Not long ago rats entered the basement of the new station through the coal chute and gave trouble until the station men got together and constructed an electric chair especially designed for rats. The chair consists of an iron plate with a steel spike suspended above it, both the plate and spike being connected to the two wires of an electric circuit. With the spike baited with a piece of cheese, the rodents which venture up the plate and reach upward complete the electrical circuit, through their bodies and thus become their own executioners.—Electrical World.

Not Yet.
Church—Has your boy made good at college?
Gotham—Not yet. He hasn't got on the baseball or football teams or in a winning crew yet.

Secretary of War Garrison has directed that certain articles taken by Union officers from the person of Jefferson Davis when the Confederate president was captured be surrendered to Joseph A. Hayes of Colorado Springs, Colo., as representative of the estate of Jefferson Davis.

The articles are a double-barreled pistol, two dueling pistols, four bullet molds, two pistol holsters and one steel case. Since the seizure of the Confederate president these articles have been in the custody of the war department. Secretary Garrison was unwilling to yield them to Hayes, who is the husband of the oldest daughter of President Davis, until advised by Attorney General McInerney that he could legally do so.

The war department also has a shawl and cloak taken from Davis, but as these articles were not seized as they will not be surrendered.

Explained at Last.
Bit—I wonder why a woman never grows straight. Do you suppose it is due to some fault in the construction of her arms?
Dix—Not at all! It is due to the fact that a woman never throws things up until she is so mad she cannot see straight.

WAR BLOTTED OUT HUMOR

Comic Papers of Europe Are Publishing Pictures Which Have a Bitter Quality.

War, being founded as Goethe said on hatred, necessarily tends to blot out humor. This is what those most bear in mind who lament the coarsening and vulgarizing which have come over the comic papers of England, France and Germany. In their feelings with the great conflict, lightness of touch disappears and all that so gets is a series of brutal strokes.

One feels it in Punch. Its caricatures of Emperor William seem as if hatched out by the sword, and leave him little human semblance. Similarly in the German paper, Ullk, the cartoons depicting French and English are rather shudders than laughs. Their designers are evidently filled with rage and fear, making the artistic result terrible, perhaps, but never amusing.

This extinguishing by the war of good-natured merriment and really witty characterization and attacks among the peoples involved, was inevitable. In a way, it is a good sign. It helps us to understand what war truly is. Only when we become callous to its fearful aspects, is it possible to jest about it. Still, it is rather a pity to see the humorists across the sea suddenly turn vitriolic.

Interesting Finds in India.

In recent researches at Surt Castle, India, Prof. O. V. Muller of Bombay says he was shown a large number of records dating from 1750 to 1825, which had been recently discovered in the cells of the castle. These were largely price lists and other valuable to a study of Indian economic history. The most interesting find, however, was a proclamation written in Marathi in the Modi script which, after narrating the iniquities of the Peshwa Rajah Rao, declared that he had been vanquished and afterward his dominions annexed by the Hon. East India company. The document added that if anyone should be disposed to disagree with this or desire to operate it, he would do so at the risk of his life and the confiscation of all his worldly possessions. Finally, the document was "signed by order of Motilalji Khobinson Bahadur" by his Marathi secretary, and certified by a huge and still most perfect seal of Bhabhastone.

Tasks for European Statesmen.

One hundred years ago the congress of Vienna was at work in an effort to readjust the map of Europe—the same task that the European statesmen will be called upon to perform when the present great conflict is ended. Curiously enough, the question of Poland constituted one of the most perplexing problems before the congress of Vienna, as it probably will at the next great conference of the nations following the present war. A century ago, as now, the national instinct of Russia aimed at nothing short of claiming possession of the whole of Poland. And then, as now, England was inclined to keep a watch upon the excessive aggrandizement of Russia, and to oppose the latter's plans for the annexation of Poland.

Puts Value on Sneezing.
"A sneeze is the 'automatic' bumper
of nasopharyngeal organs," said Dr. Walter
A. Wells in an address before the
members of the "Keep Wells," a woman's
organization for the study of good
health at Washington. Doctor Wells
had reference to the nose and throat as
highways for disease.
"A great many people," he said, "believe
that the important function of the nose
is the sense of smell, and they seldom think of this organ as
one of respiration. The sense of smell
is only of secondary importance when
its chief functions are considered. The
nose is the organ of respiration,
second only to the lungs in importance."

New Method of Finding Longitude.
The novel method of finding longitude
lately tried by Professor Lippmann, the
French astronomer, is the comparison of
photographs of the sky taken at two
times.
The method being shown by an artificial
star, the difference in the place of
stars taken very accurately indicates
the difference in longitude, and
if the position of one place is known
that of the other can be fixed with an
accuracy claimed to be only a few
feet—perhaps ten or fifteen.

DEATH'S HARVEST

Many Prominent People of
Washington County Pass
To Their Reward

TODIN
Mr. John Tobin died at his
home in this county last Friday
afternoon of several days of
Acute Indigestion. He was
67 years of age and was born in
Ireland, being a son of the late
Patrick Tobin. When he was
quite young he came with his
parents to this country, where
the family lived in New York for
several years after which they
came to Kentucky. Forty years
ago Mr. Tobin was united in
marriage to Miss Margaret Fitz-
gerald, a daughter of the late
Mr. and Mrs. David Fitzgerald.
After his marriage Mr. Tobin and
wife went to Indiana to live and
continued his residence there
until sometime after the death of
his wife. Later he returned to
Kentucky and settled in Wash-
ington County where he resided
until his death. He was married
the second time, his last wife
being Miss Lizzie Oliver who sur-
vives. Mr. Tobin was a success-
ful farmer and stock raiser, and
was a very worthy citizen of the
county. He was always held in
the highest regard by all who
made his acquaintance, and in
his death the public has lost a
valuable citizen. He is also sur-
vived by the following children:
Mrs. Patterson of Louisville,
Mrs. Irvine Mann of Marion
County, and Will Tobin of the
United States Army. Mrs. Will
Buckman and Mrs. Albert Ridd,
Miss Mattie Tobin and Messrs
John and Hugh Tobin of this
county. Funeral services were
conducted at St. Dominic's
church by Rev. Father Duggessy
Monday morning and burial was
in St. Dominic's Cemetery.

CLEMENTS
Mrs. Elizabeth S. Clements
died at her home near Spring-
field last Saturday after an ill-
ness of several months of
Bright's Disease. Prior to her
death she was suffering from
Jaundice being a daughter of the late
J. H. Spalding and was born in
Marion county October 27, 1836.
On February 14th, 1854 she was
united in marriage to Mr. Jas.
R. Clements who preceded her to
the grave several years. She is
survived by the following
children: Messrs. J. W. S. Cle-
ments, of Louisville; G. O. T. Win-
A. J. S. Jas. C. and Spalding
Clements, Miss Hallie Cle-
ments and Mrs. P. J. Kelly, of
this county.
Mrs. Clements was a woman
who possessed many noble traits
of character and was popular
with all with whom she came in con-
tact. She was a kind and indulgent
mother and a charitable
neighbor.
Funeral services were conducted
at St. Rose Monday at 2 o'clock.
Her six oldest sons all buried.

LITTERAL
Mr. Wm Litteral died at his
home in North Washington last
Saturday, after a short illness
of pneumonia. Funeral services
were conducted at Mr. Friedman
by Rev. H. L. D. A. on He was
71 years of age and a lifelong
citizen of the county. Early in
life he was united in marriage to
Miss Jane Daggins, who died
many years ago. After her
death he was later married to
Mrs. Martha Holiday, widow of
the late J. F. Holiday, who survives.
He is survived by one son,
Mr. George Litteral, and a grand-
son, the son of Mr. Orey Litteral.
He was a man well thought
of by everybody and was a good
citizen.

the effects of a burn received two
weeks ago, when his clothing
caught fire from an open grate.
He was 90 years old and had
lived in the county all his life.
Funeral services were conducted
at St. Dominic's church Tuesday
and burial was in St. Dominic's Cem-
etery.

Sixteenth Anniversary
One of the most delightful oc-
casions ever held in Springfield
was that of last Tuesday after-
noon when Mrs. Thurman enter-
tained the Women's Missionary
Society of the Methodist church
in honor of its sixteenth birthday.
True this was not the actual date
of organization, but there is
reason why the celebration
should take place on this day in-
stead of the real day which is
some time later.

After the usual routine of busi-
ness, with Mrs. Merritt in the
chair, the following interesting
program was carried out in respec-
tive order: A collection on the piano
by Mrs. Busley.
1st. "Why Every Woman
should belong to the Missionary
Society," by Mrs. Crowe.
2nd. Sketch of the History and
Work of the "Sue Bennett School
by Miss James McElroy.
3rd. History and Work of Bre-
thren Institute, Mrs. Thomas
Parrish.

4th. "Annual Prayer" as wit-
nessed by Rev. W. G. Cram,
Mrs. Merritt.
5th. History of Springfield Society,
Mrs. Thurman.

Just sixteen years ago the so-
ciety was organized with five
charter members as follows: Miss
Anna Marras Pres. Mrs. Allen,
Mrs. Nelson, Miss Minnie Mc-
Cullum, and Mrs. Thurman. A
few months later Mrs. Merritt
joined, and has since kept her
membership here. Of this num-
ber Miss Marras has since re-
turned, the others were all present.
Mrs. Allen graciously send-
ing a representative in her place
her daughter Miss Mamie. The
Society as a whole and specially
these charter members felt en-
couraged indeed, when looking
back at the small beginning, and
the looking around in the faces
of about twenty-five or thirty
enthusiastic members today.
While the hostess served dainty
refreshments, there was a round
table chat of Mission Study led
by Mrs. Marks. The Society
unanimously decided to take the
Missionary Voice as a text book
in their study course the coming
term.

Their study was all so thor-
ough and the members were wish-
ing might have another An-
niversary soon.

Are Light and Sober.
To improve the acoustic properties
of a large hall at the University of
Illinois an electric arc light was
used to assist the investigation in locat-
ing the sources of sound disturbance.
The acoustical properties of the
room were studied at the start, by
a series of experiments within the
auditorium itself, following careful
studies in the laboratory, the trouble
has been practically cured.

Recesses were located by means of
an alternating current arc light, a
beam from which, accompanied by the
bleating sound of the arc, was directed
to various parts of the room. The
paths of the light reflections were
traced and verified by the sound.

A complete acoustical survey was
then made of the auditorium, result-
ing finally in the hanging of curtains and
carpets in various parts of the room
so as to stop the reverberations—the
guttering record.

House Cat Mothers Baby Widest.
Frank T. Robinson, a Baltimore &
Ohio engineer of Cumberland, Md.,
has a house cat that is mother of a
baby widest. Two kittens, today's
own, share with the wild one the
favor of the mother.

A groundhog hunter ran across a
den of four wildcats near Foley, a few
miles north of here, on the top of the
Alleghenies. He brought two home
and gave one to Robinson, who placed
the little wildcat with the mother cat,
and it is thriving, being nourished
along with the kittens.
